SUMMARY

Artificial Intelligence and Machine Learning undergraduate with hands-on experience in Python, TensorFlow, and scikit-learn. Experienced in building real-world AI systems including NLP-based information retrieval, speech recognition, and networked applications. Strong foundation in end-to-end AI workflows, problem-solving, and cloud-enabled development. Seeking opportunities to apply and grow technical expertise in impactful projects.

EXPERIENCE

AI Intern

Infosys Springboard

September 2025 – November 2025, Virtual Internship

- Developed an **AI-based legal document reference and retrieval system** using NLP and machine learning techniques.
- Preprocessed and analyzed legal text data to enable **accurate and context-aware query-based retrieval**.
- Applied **Python-based NLP workflows** to improve information relevance and retrieval efficiency.
- Strengthened practical understanding of **AI-driven information retrieval systems**.

PROJECT

Speech Recognition

Vasireddy Venkatadri Institute of Technology

- Built a **real-time multilingual speech-to-text and translation system** in Python supporting **6 Indian languages**.
- Integrated **Google Translate API** and **gTTS** for automated translation, speech synthesis, and audio storage.
- Improved recognition accuracy by handling **noisy environments** and resolving **OS-specific audio issues**.

Networked Game

Vasireddy Venkatadri Institute of Technology

- Designed TCP/UDP networking protocols enabling smooth real-time multiplayer gameplay.
- Implemented matchmaking, synchronization, and scoring mechanisms for balanced competition.
- Developed scalable architecture ensuring responsiveness under multiple concurrent players.

EDUCATION

Bachelor of Technology (B.Tech.) – Artificial Intelligence & Machine Learning

Vasireddy Venkatadri Institute of Technology • Namburu, Guntur District, Andhra Pradesh, India • Expected Graduation: 2027 • 8.23/10

CERTIFICATIONS

AWS APAC – Solutions Architecture Job Simulation

Forage • 2025

- Designed scalable and cost-efficient AWS-based cloud solutions.

Generative AI Professional

Oracle • 2025

- Gained hands-on skills in building and deploying generative AI solutions.

LLM

NPTEL • 2025

- Completed coursework covering transformers, attention mechanisms, pretraining, fine-tuning, and LLM applications.

SKILLS

Programming: Python, C, Java, HTML, CSS, JavaScript (basic), Data Structures

AI/ML: Machine Learning, NLP, Speech Recognition, Data Analysis, TensorFlow, scikit-learn

Cloud & Tools: AWS, SQL, Flask, React.js, GitHub, SpeechRecognition, gTTS, Google Translate API
